Education

Ph.D., Engineering Education

Virginia Tech, Blacksburg, VA

May 2025

(4.0 GPA)

- *Advisor:* Dr. Marie C. Paretta
- *Dissertation:* Exploring Systems Influences on Engineering Graduate Student Interdisciplinary Identity-Based Motivation towards Research Careers
 - Nominated for Council of Graduate Studies (CGS) / ProQuest Distinguished Dissertation Award by Virginia Tech Graduate School
 - VT Department of Engineering Bevelee Watford Outstanding Dissertation
 - Nominated for VT Graduate School Outstanding Dissertation for Social Sciences
 - 1st place, VT College of Engineering Torgersen Outstanding Dissertation Award

M.S., Civil Engineering

Virginia Tech, Blacksburg, VA

May 2024

(3.95 GPA)

- *Focus Area:* Sustainable Land Development

Graduate Certificate, Disaster Resilience and Risk Management

Virginia Tech

(4.0 GPA)

B.S., Mechanical Engineering, *Magna Cum Laude*

Rice University, Houston, TX

(3.88 GPA)

Research Work Experience

Teaching and Learning Consultant

Engineering TA/CA Professional Development Program, Office of Inclusive Excellence (OIE), Cornell University College of Engineering

5/2026 – Present

- *Supervisors:* Dr. Celia Evans and Dr. Wenjing Luo
- Co-developing and co-facilitating evidence-based, interactive training workshops for engineering graduate Teaching Assistants (TAs) and undergraduate Course Assistants (CAs)
- Co-presenting and supporting logistics for the two-day graduate TA Development program and the Masters/Undergraduate CA Training event each semester
- Conducting microteaching sessions with small groups of TAs during the first two weeks of each semester to support instructional growth and reflective practice
- Participating in a structured professional development series focused on student-centered pedagogy, workshop design, and facilitation skills
- Conducting research on the TA/CA Development Program

Facilitator and Researcher

Radical Humanity in Research (RHR) Program, Office of Inclusive Excellence (OIE), Cornell University College of Engineering

9/2025 – Present

- *Supervisors:* Dr. Laura Schoenle, Dr. Alex Werth, and Dr. Alex Coso Strong
- Supporting a team-based professional development program for faculty and their research groups focused on cultivating values-centered, inclusive research cultures; involves facilitated dialogues engaging faculty, graduate students, postdoctoral associates, and undergraduate researchers in co-constructing shared research group values, mutual expectations, and feedback and accountability practices
- Conducting research on the program's impact
- Contributing to grant writing to support program development and expansion

Postdoctoral Fellow

7/2025 – Present

Cornell Disciplinary-Based Education Research (CDER), Department of Biomedical Engineering, Cornell University, Ithaca, NY

- *Supervisors:* Dr. Alex Werth and Dr. Alex Coso Strong
- Conducting independent and collaborative research on:
 - Postdoctoral professional development (PD): exploring how structures, systems, and cultures impact post-doctoral associates as scholars and change agents
 - Generative artificial intelligence's role in automating qualitative assessment of student reflection quality, contextualized to specific STEM education courses
 - Active Learning Initiatives: programs seeking to implement evidence-based teaching strategies as instructional change models
- Supporting research grant writing
- Initiating, planning, and implementing a regional Disciplinary-Based Education Research (DBER) conference
 - Built and maintain the NYDBER conference website: [Website](#)
- Mentoring graduate and undergraduate students in conducting STEM education research

Graduate Research Assistant, Graduate & Professional Studies

June 2024 – May 2025

Office of the Dean of the College of Engineering, Virginia Tech, Blacksburg, VA

- *Supervisor:* Dr. Holly Matusovich
- Coordinated and hosted the Virginia Tech Dissertation Institute (VTDI) for graduate student writing and research skills support
- Organized the College of Engineering Graduate Student Fall Welcome Fair for student orientation and networking
- Developed and managed the 2024–2025 workshop series for professional development, targeting graduate students and external fellowship holders
- Evaluated programming effectiveness and prepared formative and summative assessment reports for the Dean
- Initiated and developed a college-level Canvas site as a repository for engineering graduate student professional development materials and programming
- Developed a peer-mentoring program for external fellowship-holding students, piloting a GPS Student Ambassador Program
- Served on the 2024 search committee for a new Assistant Director of Graduate and Professional Studies, contributing to position description writing, application screening, interviewing, and candidate evaluation
- Organized the hire for a computer scientist graduate assistant
- Collaborated on developing a scalable, efficient computerized process for addressing College of Engineering under-enrolled classes for semesterly audits and reporting

Graduate Research Assistant, Designing Technology for Hospital Education

2024 – 2025

Institute for Creativity, Arts, and Technology, Virginia Tech, Blacksburg, VA

- Supported VT Institute for Creativity, Arts, and Technology (ICAT) Major SEAD Research Grant (\$40,000); *PIs:* Dr. Finda Williams and Dr. Sweta Baniya
- *Research Data Collection and Analysis:* Conducted semi-structured interviews with hospital educators, developed a qualitative codebook, and analyzed qualitative journal and interview data using qualitative research methods
- *Research Writing:* Published and wrote conference papers and journal articles related to this research

Graduate Research Assistant, Disaster Resilience and Risk Management

2021 – 2024

Engineering Education, Virginia Tech, Blacksburg, VA

- Supported NSF Award #1735139 (Research Traineeship Program): creating quantitative decision-making frameworks for multi-dimensional and multi-scale analysis of hazard impact; *Supervisor:* Dr. Marie Paretti; *PI:* Dr. Robert Weiss
- *Program Development and Assessment:* Supported the design of and conducted program-level and course-level assessments (including pre/post concept maps and annual interviews with student participants); summarized

assessment findings for the annual NSF NRT report and presented findings to the DRRM advisory board and the graduate school

- *Research Data Collection and Analysis:* Conducted semi-structured interviews and focus groups with participants, developed a qualitative codebook, and analyzed qualitative journal and interview data using qualitative research methods
- *Research Writing:* Published conference papers and journal articles related to this research
- *Conference Planning and Coordination:* Planned and coordinated the graduate student programming for the annual NSF Research Traineeship (NRT) conference, 2022–2023
- Mentored junior Engineering Education graduate students in research methods, paper and dissertation ideation, completion of PhD milestones, and career development, including navigating the job market

Graduate Research Assistant, COVID-19 & Climate Change: Mapping the Effects of Compounding Crisis in the Coastal Zone Using Natural Language Processing 2021 – 2024

Center for Coastal Studies, Virginia Tech, Blacksburg, VA

- *PIs:* Dr. Andrew Katz and Dr. Sweta Baniya; Center for Coastal Studies, Virginia Tech Major SEAD Research Grant
- Supported development of an end-to-end method leveraging GPT-3.5 for generating qualitative codebooks from disaster-related social media data with minimal human input
- Contributed to interdisciplinary research using NLP for qualitative analysis, demonstrating the potential of transformer-based large language models and generative AI for scaling up and expediting qualitative analysis of social media conversations around compounding crises
- Mentored undergraduate students from Urban Planning, Geography, Communications, and Computer Science in applying natural language processing to interdisciplinary research on disaster resilience, guiding them in research writing and exploring technological solutions for compounding crises like COVID-19 and climate change

Graduate Research Assistant, Towards Digital Justice: Developing a US Citizenship App & Website with Refugees & Immigrants 2021 – 2024

Center for Refugee, Migrant, and Displacement Studies, Virginia Tech, Blacksburg, VA

- *PIs:* Dr. Sweta Baniya and Dr. Katrina Powell; American Council of Learned Societies (ACLS) Digital Justice Seed Grant
- Supported a community-engaged, participatory action research project aimed at reimagining the U.S. naturalization process for people seeking refuge through a lens of digital justice, meaningful integration, and centering community expertise
- Employed theoretical frameworks of knowledge justice, digital justice, and epistemic integration to critically examine the unintended consequences and structural barriers created by the integration of information and communication technologies (ICTs) into the naturalization process
- Investigated the normative assumptions about migrants and integration embedded in digitized naturalization processes and resources, and explored the knowledge, experiences, and counter-expertise of people seeking refuge that are not represented in current system designs
- Adopted a qualitative, community-based approach to mitigate the systemic negative effects of ICT implementation in the naturalization process and co-designed ICTs with newcomers, informed by the lived experiences and values of refugee and immigrant communities
- Mentored undergraduate students across Computer Science, Psychology, Technical Communications, and Engineering in technology development, participatory action research, and publication strategies, fostering interdisciplinary collaboration

Graduate Research Assistant, Strengthening Virginia's Ability to Provide Migration Support and Improve Refugee Population Outcomes

Center for Refugee, Migrant, and Displacement Studies, Virginia Tech, Blacksburg, VA

- *PIs:* Dr. Sweta Baniya and Dr. Katrina Powell; 4-VA Collaborative Research Grant in collaboration with JMU, GMU, and VCU
- Supported the development of a centralized, sustainable, public database and website that builds upon JMU's

CISR Global CWD Repository, a free resource consolidating information on resettlement services for New Americans in Virginia

Critical Displacement Studies Fellow

Aug 2021 – May 2024

Center for Refugee, Migrant, and Displacement Studies, Virginia Tech, Blacksburg, VA

- *PIs:* Dr. Katrina Powell and Dr. Rebecca Hester; National Endowment for the Humanities, in partnership with the Social Science Research Council
- Collaboratively wrote an open-access reader, the *Interdisciplinary and Critical Displacement Studies Reader*, bringing together a breadth of perspectives across disciplines and a variety of forms, building a Critical Displacement Studies methodological research approach

Undergraduate Research Assistant, Rice Tribomechadynamics Lab

2016 – 2019

Mechanical Engineering, Rice University, Houston, TX

- Designed and fabricated fixtures for Dr. Brake's Tribomechadynamics lab, including tensile testing tools, trunnions, and drop testing equipment
- Conducted surface dimpling tests and data analysis in support of a PhD student's dissertation
- Coordinated the onboarding of new undergraduate research assistants into the research environment

Teaching Experience

Teaching and Learning Consultant, Engineering TA/CA Development Program 05/2026 – Present

Office of Inclusive Excellence, Cornell University, Ithaca, NY

- Co-developed and co-facilitated evidence-based training workshops for engineering graduate TAs and undergraduate CAs, supporting the development of student-centered instructional practices across Cornell Engineering
- Conducted microteaching sessions with small groups of TAs to provide structured, reflective feedback on teaching practice during the first weeks of fall and spring semesters

Graduate Teaching Assistant, Intercultural Issues in Professional Writing (ENGL 3834)

Spring 2024, Fall 2025

Virginia Tech, Blacksburg, VA

- Taught modules on participatory action and community-engaged technical communication, and effective presentations for conferences
- Graded weekly discussion posts and course mid-semester projects

Graduate Teaching Assistant, Interdisciplinary Research Methods in Disaster Resilience (GRAD 5134)

2023 – 2024

Virginia Tech, Blacksburg, VA

- Contributed to course design, syllabus development, and assessment development for interdisciplinary undergraduate and graduate courses
- Responsible for grading weekly assignments and project assignments, providing detailed feedback to 25 students
- Collaborated with faculty instructors on iterative improvements to course materials and teaching methods based on assessment data

Middle and High School Math Teacher

12/2020 – 6/2021

Harmony Public Schools

- Designed lesson plans with active learning pedagogies for in-person and online instruction
- Advanced student learning by contextualizing subject matter to student interests
- Cultivated relationships with 120 students, dozens of faculty, and parents
- Collaborated with teaching teams to increase the use of active learning pedagogies in the math department

Texas Education Agency, Teaching Certification Program

5/2021

- TExES 274: Grades 6–12 Mathematics, Physical Science, and Engineering Content Exam (276/300)

Solids Mechanics Undergraduate Learning Assistant
Mechanical Engineering Department, Rice University, Houston, TX

Fall 2017

- Responsible for supporting recitation sessions
- Collaborated with faculty instructors on improvements to lab materials

Presentations

Invited Talks and Workshops

1. **Webb, M.E.B.** (2022, Spring). “Engineering Work Abroad” and “Culture in Engineering.” Invited talks by Dr. Jessica Deters and Dr. Homero Murzi at Virginia Tech Rising Sophomore Abroad (RSAP) Program. *40 attendees*.
2. **Webb, M.E.B.** & Singh, H. (2022, September). “Diversity, Equity and Inclusion Research in Natural Hazards Engineering.” Invited talk with Dr. Robin Nelson and the Natural Hazards Engineering Research Infrastructure’s (NHERI) Graduate Student Council. *70 attendees*.

3. **Webb, M.E.B.** & Lightner, T. (2022, October). "Communicating Interdisciplinary Research: Taking Convergent Research Topics to Research Questions." Invited talk with Dr. Robert Weiss and Dr. Marie Paretti, Virginia Tech Disaster Resilience and Risk Management Program. *20 attendees.*
4. **Webb, M.E.B.** (2022, October). "Exploring the Professional Identity Development of Displaced Engineering Students." Invited talk at Ohio State University for ENGE Graduate Student Seminar Exchange. *30 attendees.* [Event page.](#)
5. **Webb, M.E.B.,** Singh, H., Inman, R., Katz, A., & Baniya, S. (2022, November). "COVID-19 & Climate Change: Methods for Mapping the Effects of a Compounding Crisis in the Coastal Zone." Invited talk with Dr. Robert Weiss, Virginia Tech Disaster Resilience and Risk Management Program and Center for Coastal Studies. *15 attendees.*
6. **Webb, M.E.B.** & Singh, H. (2023, February). "Cultural Competence in Hazards and Disaster Research: CONVERGE Training Module Workshop." Invited talk with Dr. Robin Nelson and the NHERI Graduate Student Council. *50 attendees.* [Recording.](#)
7. **Webb, M.E.B.,** Baniya, S., East, A., Williams, C., & Powell, K. (2023, February). "Towards Digital Justice: Participatory Action Research on Structural Barriers to US Citizenship for People Seeking Refuge." Invited talk with Dr. Janine Joseph at Virginia Tech Introduction to Displacement Studies Program. *25 attendees.*
8. **Webb, M.E.B.,** Baniya, S., & Powell, K. (2023, March). "Towards Digital Justice: Participatory Action Research on Structural Barriers to US Citizenship for People Seeking Refuge." Invited talk with VT Center for Refugee, Migrant, and Displacement Studies and the VA CRMDS Consortium. *50 attendees.*
9. **Webb, M.E.B.,** Gerhardt, M., & Schibelius, L. (2023, October). "Navigating Engineering Industry: The Job Search and Beyond." Invited talk with the Virginia Tech Interdisciplinary Senior Capstone course about the transition to engineering work. *60 attendees.*
10. **Webb, M.E.B.** (2024, September). "Planning to Apply for Engineering Graduate School Fellowships." Invited talk with the VT College of Engineering Graduate and Professional Studies program. *25 attendees.*
11. **Webb, M.E.B.** (2025, December). "Conference and Poster Planning for Undergraduate Technical Communication Students." Invited talk and poster judge with Dr. Baniya's undergraduate Technical Communication and Documentation course. *30 attendees.*
12. **Webb, M.E.B. & Smith, A.** (2025, February). "Understanding Virginia Hospital Educators' Work Practices and Technology Needs." Invited talk with the VT Institute for Creativity, Arts, and Technology. *30 attendees.*
13. **Webb, M.E.B.** (2025, April). "Poster Presentations for Research Conferences." Invited talk with the Virginia Tech College of Engineering Graduate and Professional Studies (COEGPS). *25 attendees.*
14. **Webb, M.E.B.** (2025, May). "Getting the Most Out of Engineering Conferences and Conference Resources." Invited talk with the Virginia Tech College of Engineering Graduate and Professional Studies (COEGPS). *25 attendees.*
15. Montilla, H., **Webb, M.E.B.,** Herron, C., Dimobi, C. (2026, April). "Shaping Your Career Path: Virginia Tech College of Engineering Graduate Alumni Panel." Invited talk with the Virginia Tech College of Engineering Graduate and Professional Studies (COEGPS). *45 attendees.*

Conference Presentations and Posters

1. **Webb, M.E.B.,** Fraser, R., & Davies, H.R. (2022, March). "Psychosocial Factors in Disaster Research." Hosted a roundtable discussion at the PRIMR Conference, University of North Texas. *10 attendees.*
2. Fiore, S., Hartley, T., Granados, D., & **Webb, M.E.B.** (2022, August). Panel session: Understanding and addressing interdisciplinary learning: Perspectives from NSF-funded research to improve team science education. Presented at the International Network for the Science of Team Science (SciTS) Conference [virtual].
3. **Webb, M.E.B.** (2022, October). "Facilitating Interdisciplinary Graduate Education in Disaster Resilience." NSF Research Traineeship Annual Meeting. *100 attendees.*
4. **Webb, M.E.B.** (2022, October). "Turning Convergence Research Topics into Convergence Research Questions and Teams." NSF Research Traineeship Annual Meeting. *70 attendees.*
5. Davies, H.R., **Webb, M.E.B.,** & Fraser, R. (2023, January). "Psychosocial Factors and Perishable Data Collection in Disasters: Creating Resilience through Research." Hosted a roundtable discussion at the Society for Social Work Research (SSWR) Conference. *10 attendees.*

6. **Webb, M.E.B.**, Scott, L., Salem, A., Baniya, S., & Powell, K. (2023). Towards digital justice: Developing US citizenship application & website with refugees & immigrants using participatory action methods. *Proceedings of the Conference on Community Writing Workshop*, Denver, CO.
7. Smith, A., **Webb, M.E.B.**, Raspberry, N., Baniya, S., & Ogbonnaya-Ogburu, I. F. (2025). Designing technology to support the hospital classroom. *Proceedings of the 2025 CHI Conference on Human Factors in Computing Systems*.
8. Baniya, S., **Webb, M.E.B.**, Scott, L., & Powell, K. (2026). Implementing digital justice to support refugee and immigrant communities. *Proceedings of the 2026 CHI Conference on Human Factors in Computing Systems*.
9. **Webb, M.E.B.**, Coso Strong, A., & Werth, A. (2026). From framework to field: Developing and applying a relational agency model for DBER postdoc professional development. *Proceedings of the 2026 Upstate NYDBER Conference*, Ithaca, NY.
10. **Webb, M.E.B.**, Cao, Y., Schuman, A., Lightner, T., Goldschneider, B., Li, T., & Ross, A. (2026). “Where Do I Go Next? Career Pathways for Students in Engineering Education.” Panel presented at the American Society of Engineering Education (ASEE) Conference, Charlotte, NC.

Recognition

Honors and Awards

- **SEFI Early Career Researcher’s Club, European Society of Engineering Education** — ’25–’26
- **American Society of Engineering Education, Graduate Studies Division (GSD)** — June 2025
Best Student Paper Award, GSD (second consecutive year); first author of “Tracking the Evolution of Interdisciplinary Identity-Based Motivation in Engineering Graduate Students: A Longitudinal Study,” with co-author Dr. Marie C. Paretti. sites.asee.org
- **American Society of Engineering Education, Graduate Studies Division (GSD)** — June 2024
Best Student Paper Award, GSD; first author of “Understanding Ecosystems of Interdisciplinary Graduate Education through an Ecological Systems Approach,” with co-author Dr. Marie C. Paretti.
- **Virginia Tech**
Nominated for Council of Graduate Studies (CGS) / ProQuest Distinguished Dissertation Award by Virginia Tech Graduate School, 2026
VT Department of Engineering Beville Watford Outstanding Dissertation, 2026
Nominated for VT Graduate School Outstanding Dissertation for Social Sciences, 2026
Nominated for VT College of Engineering Outstanding Doctoral Student, 2025
1st place, VT College of Engineering Torgersen Outstanding Dissertation Award, May 2025 | [Website](#)
President’s Honor Roll, 2021–Present
Pratt Fellowship for Research Excellence, \$2,000, 2021–2022
Outstanding Capstone Design Project (Bowman Sustainable Land Development, CEE M.S. Program), Spring 2023
- **Rice University** — 2015–2019
President’s Honor Roll
Rice University Willy Revolution Award for Outstanding Innovation: Senior Capstone Award
Oshman Engineering Design, Engineering + Art Competition

Engineering Work Experience

Subsea Engineer

8/2019 – 3/2021

ExxonMobil

- Rotating Facilities Engineer to Norman Wells, NWT, Canada: Responsible for on-the-ground engineering activity and operations optimization
- Project Engineer, Liza Phase 1 Subsea Pig Launcher: Developed, manufactured, and tested a \$3M assembly deployed offshore Guyana for a remediation activity
- Subsea Hardware Lead, Central South Dag: Responsible for the design of all subsea hardware for a 14-well tieback offshore Sakhalin, Russia
- Internship Program Coordinator for Upstream Integrated Solutions: Planned and executed the internship program for 80 employees; developed projects, assigned mentorship, and facilitated the development of new

hires

- Subject Matter Expert in Template Manifolds and Elastomer-Sealed Subsea Gaskets: Served as the main point of contact for technical questions and training on these topics for all Exxon subsea projects

Subsea Engineering Intern

5/2018 – 8/2018

ExxonMobil

- Designed an enhanced surveillance leak detection tool for potential methanol egress in subsea fields
- Performed a calculated risk assessment on critical path mid-water arches and recommended areas of focus for repair
- Oversaw site receipt testing of production header isolation valves prior to assembly-level fabrication
- Scoped the 2018 cathodic protection survey for Mobil Equatorial Guinea using descriptive analytics in JMP

Process Engineering Intern

5/2017 – 8/2017

Air Liquide

- Designed an atmospheric pressure vessel meeting ASME safety requirements for natural gas disposal
- Collaborated with plant managers and process technicians to write new standard operating procedures for an off-site air separation facility

Fellowships

- **Colorado School of Mines Teaching with Heart Program**, 2024–2025 — \$500 fellowship to participate in experiential workshops focused on integrating empathy and care into STEM teaching
- **Institute for Creativity, Arts, and Technology, Virginia Tech** — Roger and Debbie West Student Research Grant, \$1,000, 2023–2024: “Weaving Weeds: Exploring Human-Plant Relations through Bio-Fabrication”
- **Society for Social Work Research** — Doctoral Student Travel Award, \$1,500, 2023
- **American Society of Engineering Education, Women in Engineering Division** — Graduate Student Travel Grant, \$1,500, 2023
- **National Science Foundation, in Partnership with Virginia Tech** — NSF Research Traineeship Fellowship, Disaster Resilience, 2022–2023
- **Virginia Tech** — Travel Grant, Graduate and Professional Student Senate, \$1,500, 2022–2023; Travel Grant, Center for Coastal Studies: Disaster Resilience, 2022–2023
- **Rice University**, 2015–2019 — Rice Engineering Alumni Association Buckley Sartwelle Scholarship, \$12,000

Grant Writing Experience

NSF STEMEdIPRF Postdoctoral Fellowship Proposal

December 2024

Transforming Graduate Education and Systems Perspectives on Interdisciplinary STEM Graduate Development and Programming — PI: Margaret Webb

- Led ideation and conceptual development
- Collaborated with mentors across universities
- Completed proposal writing and submission

NSF CAREER Award Grant Application, Graduate Research Assistant for Dr. Sweta Baniya Summer 2024

Theorizing Disaster Rhetorics: A Multi-Country Study for Disaster Response and Crisis Communication — PI: Dr. Sweta Baniya

- Conducted an extensive literature review to inform the theoretical framework and support the grant proposal
- Collaborated on writing the proposal, enhancing clarity, coherence, and alignment with NSF priorities

Broader Impact Websites

Personal Research Website

webbmargaret.github.io

- Academic portfolio site, with pages for Research Overview, Publications, Talks, Teaching, and CV, plus links to Google Scholar, ORCID, ResearchGate, and LinkedIn profiles
- **Built with:** Jekyll (a static site generator) using the AcademicPages theme, a popular fork of the Minimal Mistakes Jekyll theme built for academic personal sites; hosted free on GitHub Pages, which auto-builds the Jekyll site from the repo on every push

Upstate NYDBER Conference Website

Website

- Event site for the Upstate NY DBER Conference (June 11–12, 2026, Cornell), with Home, Program, Directory, Posters, and Gallery pages; covers the conference theme, NSF funding, and a downloadable flyer/logo assets
- **Built with:** Static HTML/CSS, hosted on GitHub Pages (org-level repo nydber2026)

DBER Network Analysis Website

Website

- Interactive, static visualization of a DBER scholars dataset — a D3.js force-directed “hub-and-spoke” network graph grouping scholars by institution, program, DBER field, and PhD era; includes an About page explaining the dataset/limitations and a Contribute page (mailto-based form for people to add themselves or request corrections)
- **Built with:** Python (`build_data.py`) to process a source CSV into JSON (`scholars.json`, `groups.json`), then a static HTML/CSS/JavaScript (D3.js) front end

DBER Job Webscrape Website

Website

- Data report analyzing 15+ years of academic job postings, built by scraping and classifying listings from two community-run job boards: the PER Jobs blog (Physics Education Research) and the Engineering Education job wiki
- **Built with:** A Python web-scraping pipeline pulling postings from the two job boards, parsed/cleaned and classified (by role type, institution, subfield, etc.) into a dataset, then rendered as a static HTML report, hosted on GitHub Pages like the other sites

Service

- American Society of Engineering Education, Graduate Studies Division — Secretary, 06/2025 – Present
- Rice University Engineering Alumni Association — Education Research Consultant, 05/2025 – Present

- Virginia Tech Engineering Outstanding Doctoral Student Award Committee — Spring 2024
- VT Engineering Dean's Search Committee for Assistant Director, Grad Studies — Fall 2024
- Virginia Tech Graduate and Professional Student Senate (GPSS), 2023–2024 — Representative for the Department of Engineering Education; Voting Member of the Commission on Faculty Affairs
- American Society of Engineering Education, Student Division Best Paper Chair — 2023–2024
- Virginia Tech Chapter of American Society of Engineering Education (ASEE@VT) — Vice President, 2022–2023
- [Natural Hazards Engineering Research Infrastructure](#) Graduate Student Council (GSC) — Chair of DEI and President of Social Science Research Group, 2022–2024
- ExxonMobil, Subsea Engineering Department, Houston, TX — United Way Champion, 2019–2020
- Children's Assessment Center (CAC), Houston, TX — Volunteer Program Coordinator, 8/2018 – 5/2020
- Rice University, Department of Mechanical Engineering, Houston, TX — Co-Founder of Mechanical Engineering Undergraduate Advisory Board, 2016–2019; Student Representative to the Credit Cap Committee, 8/2015 – 5/2016; Student Ambassador to Rice Engineering, 2015 – 5/2019; Peer Career and Peer Academic Advisor, 6/2015 – 5/2019

Professional Membership

- VT Community of Practice for Professional Development — 12/2024 – 5/2025
- AAAS/Science Program for Excellence in Science — 10/2024 – Present
- American Society for Engineering Education — 8/2021 – Present (Graduate Studies Division; Multidisciplinary Engineering Division; Student Division)
- Natural Hazards Research Infrastructure Graduate Student Council — 8/2021 – 5/2024 (DEI Committee; Social Science Research Committee)
- Rice University Engineering Alumni Association — 05/2019 – Present
- Society of Petroleum Engineers — 8/2021 – 8/2022
- ExxonMobil Toastmasters — 8/2019 – 12/2020
- ExxonMobil Black Employees Success Team — 8/2019 – 12/2020
- ExxonMobil PRIDE — 8/2019 – 12/2020
- ExxonMobil Women's Interest Network — 8/2019 – 12/2020
- Society of Women Engineers — 8/2015 – 8/2019
- American Society of Mechanical Engineers — 8/2015 – 8/2019
- Rice Creative Society — 8/2015 – 5/2019

Professional Development

Conference Attendance, Paper Reviews, Moderation

- Collaborative Network for Engineering and Computing Diversity Conference, New Orleans, LA — *In-Person Attendee*, 2022
- The Natural Hazards Workshop, Boulder, CO (UC Boulder CONVERGE Facility) — *Virtual Attendee*, Spring 2022
- Frontiers in Education (FIE) Conference, Uppsala, Sweden — *In-Person Attendee, Reviewer*, Fall 2022
- Australasian Association for Engineering Education (AAEE) Conference — *Virtual Attendee*, Winter 2021 and 2022; *Reviewer*, Winter 2022; *PhD Research (HDR) Symposium*, 12/2021
- American Society of Engineering Education (ASEE) Conference — *In-Person Attendee, Reviewer, Moderator*, Summer 2022 – Present
- Natural Hazards Research Infrastructure Graduate Student Council Conference — *Virtual Attendee*, 2023
- Cornell University Systems Engineering Education Summit — *In-Person Attendee and Moderator*, 2025

Professional Development Workshops Attended

- Virginia Tech Newman Library — *Evidence Synthesis Reviews 101*, 9/2021
- Virginia Tech Dissertation Institute — Summer 2024
- Colorado School of Mines Teaching with Heart Program — 2024–2025
